Amerikanische entomologische Dissertationen, 1952 – 1961¹

Das nachfolgende Verzeichnis ist eine Zusammenstellung von entomologischen Dissertationen, die in den Jahren 1952 bis 1961 von den Universitäten der Vereinigten Staaten von Amerika angenommen wurden. Diese Arbeiten werden weder vom „Zoological Record, Part Insecta“ noch von der „Review of applied Entomology“ erfaßt. Lediglich das vom Office de la Recherche Scientifique et Technique Outre-Mer herausgegebene „Bulletin signalétique d'Entomologie médicale et vétérinaire“ führt neuerdings diese Dissertationen auf, jedoch eben nur solche, die der Thematik der Zeitschrift entsprechen.

Die Titel dieser Zusammenstellung wurden größtenteils der amerikanischen Zeitschrift „Dissertation Abstracts“ (University Microfilms, Inc., Ann Arbor) entnommen, die diese Dissertationen in sehr ausführlicher Form referiert. Es erfolgt daher am Ende eines jeden Zitates ein Hinweis auf diese Zeitschrift, abgekürzt mit „DA“.

Verständlicherweise wird dieses Verzeichnis noch zahlreiche Lücken enthalten. Ich bin daher für jede Mitteilung fehlender Titel dankbar, die in einem späteren Nachtrag verzeichnet werden sollen.
